

**ASSEMBLY REPORT**  
**CLASS XII-D**  
**TOPIC: WORLD HERITAGE DAY**

**Date: 17 April 2023**

**Day: Monday**

**Class Teacher: Ms. Amita Taneja**

Every year on April 18, World Heritage Day, also known as International Monuments and Sites Day, honours the efforts made by the ICOMOS - International Council on Monuments and Sites. The focus of the day is raising awareness of the value of cultural variety and preserving it for present and future generations. We benefit from ancient structures and monuments all throughout the world. To ensure that they remain a valuable asset for a very long time, they must be safeguarded. As a result, communities all across the world worked together to create the day.

The assembly began with a shabad recital followed by the ardaas to seek the blessings of the Almighty. The organising class extends a warm welcome to the Class XI class that has just joined. The pupils repeated a thought for the day that was meant to spread happiness. News headlines and current events were explained to the kids in order to inform them of current events. A short statement on the significance of World legacy Day was delivered after a poem highlighting Delhi's culture and legacy was recited. The primary event of the day was a virtual visit to two historic places, Akshardham and Dilli Haat. The audience delighted in a charming skit performance stressing the value of Delhi's culture.

Principal ma'am's inspirational remarks and a passionate welcome to the class XI students' new academic year marked the conclusion of the assembly, which was followed by the National Anthem.

**SOME GLIMPSES OF THE ASSEMBLY**
