

ASSEMBLY ON WORLD NATURE CONSERVATION DAY

The students of Class IV D organised an assembly that centered around the theme of World Nature Conservation Day. Commencing with an invocation for divine blessings, the assembly unfolded with the sharing of daily news headlines. The Thought of the Day, emphasizing that conservation is a harmonious relationship between humanity and nature, set the tone for the event. Enhancing vocabulary, students introduced two new words – Sustainability and Perishable.

The assembly delved into various ways to conserve nature, underscoring its significance. Students elucidated on environmental protection through a spirited group dance performance set to the tune of "TIK TIK- PLASTIC," illustrating the simplest methods to safeguard the environment. The importance of the 3R Rule – Reduce, Reuse, and Recycle – was expounded upon, adding depth to the students' understanding of sustainable practices. In the end, a beautiful song was also sung.
