

EDUCATIONAL TRIP TO AMRIT UDAYAN

Enriching field trips contributes to the development of students into civilized young and dynamic citizens who possess more knowledge about art, have stronger critical-thinking skills, exhibit increased historical empathy, and display higher levels of tolerance. Field Trips are important to help bridge the gap between education and hands-on experience.

To imbibe the love for nature in students and make them grow as responsible citizens, an educational trip to Amrit Udayan was organized for the Green Ambassadors of JKPS from classes VI-IX along with the eco club prefects on 25 August 2023, Friday.

The alluring flowers made all the faces smile. The students learned about the variety of plants and flowers and their importance in our lives. Students could not take their eyes away from its lush greenery. Bal Vatika, Herbal garden, Bonsai garden, nature's classroom were some key attractions of the garden.

This was succeeded by a trip to the Rashtrapati Bhawan Museum, where the students delved into our nation's history. The experience proved highly enlightening, as the museum vividly narrates the saga of Indian Presidents and the profound chapters of our struggle for freedom. The students had the opportunity to explore numerous sections displaying photographs, personal belongings, cherished gifts, and prestigious awards bestowed upon the presidents over the decades. The museum provided the students with a comprehensive immersion into the realms of art, culture, environment, and the rich heritage encapsulated within the Rashtrapati Bhavan.

Overall, a visit to Amrit Udyan and the Rashtrapati Bhavan Museum offered a blend of natural beauty and historical significance, providing a well-rounded experience for those interested in culture, history, and nature.
