

ASSEMBLY ON VECTOR-BORNE DISEASES

Someone rightly said, “Prevention is better than cure”. We all know that due to the recent floods in Delhi, various diseases are spreading around us. Among these diseases, vector-borne diseases such as Dengue, Malaria, and Chikungunya are the most prominent. But to be safe from these diseases, we need to take some precautions.

Keeping this in mind, the students of class V- A took the initiative to spread awareness of Vector-Borne Diseases and performed a Nukkad Natak. In an engaging and enlightening Nukkad Natak performance, they brought the spotlight on the crucial topic of 'Vector Borne Diseases'. With the melodious Shabad setting the tone, the students emphasized the significance of staying safe and vigilant. The assembly further included informative news highlights and an enlightening vocabulary to enrich everyone's understanding.

The students, fueled by their passion, delivered a heartwarming presentation that left a lasting impact on everyone present. Culminating on a soulful note, the students engaged in a thoughtful discussion with Principal Ma'am about Vector-Borne Diseases. Their profound insights and sincere expressions deepened the understanding of the audience. The Nukkad Natak managed to convey precautionary measures in the most simple and touching manner, resonating with every heart in the assembly hall.
