

VIVEKANANDA PAATHSHALA- AUGUST 2023

Vivekananda Paathshala is the **backbone of our Community Outreach program**. It aims to provide education to the underprivileged students. We have been successful in continuing this initiative for so long and hope to carry it forward as a legacy of JKPS.

India's space journey enters a new phase with Chandrayaan 3. **Students enrolled in Vivekananda Paathshala joined the live telecasting organised by the Student Council of JKPS.** The children joined the JKPS family and witnessed History. They watched the live Landing of Chandyaan-3 on the Moon's surface.

The children were very curious and enthusiastic. It was a **great learning experience** for them. They held Indian Flag in their hands and waved it with a heart full of pride. It was a wonderful sight for all.

English has now become a global language and we at JKPS want our young learners of Vivekanand Paathshala to learn and grow and be able to speak English fluently. **This month, they were introduced to Sentence Structure, Nouns, and Adjectives.** This would strengthen their basic concepts of the English Language.

The students were introduced to grammar concepts through various activities and the students participated eagerly.

Vivekananda Paathshala would not be a success without the **active participation of our volunteers** who are always there to help and guide the students. **They stand as a pillar with the teachers to provide the best learning experience to these young learners.**

A session on Health and Hygiene was also organised to create awareness regarding malnutrition among children. They were made aware of some healthy habits like brushing, drinking enough water, washing hands before and after eating, cutting nails regularly, etc.

JKPS has always promoted Holistic Development in Children. August was filled with exciting activities for Vivekananda Paathshala students. **Science experiments were demonstrated** by the teacher and then performed by the students to provide them an exposure and Hands-on learning experience.

Students at Vivekananda Paathshala also enjoyed celebrating birthdays with their friends. Along with the distribution of refreshments, the cake-cutting ritual was held. Students happily danced with one another and enjoyed their time at JKPS.
