

## ASSEMBLY REPORT

### DIGNITY OF LABOUR

*"In the tapestry of life, each thread of labor weaves a story of resilience, strength, and the inherent dignity of human endeavor."*

Class - XI – A

Date – July 7, 2023

Class teacher – Ms. Bhawna Sharma

The students of class XI-A felt highly privileged and dynamic to present their class assembly on the topic “Every job deserves respect: Dignity of labour”. The assembly began by invoking divine blessings through the Shabd followed by a refreshing thought of the day. To widen their linguistic horizons, the students presented two new words along with their uses and then a quick glimpse into the day's top stories through the day's news headlines. The students performed a Roleplay. It beautifully portrayed the diversity of occupations and the significance of each person's contribution to society. The students witnessed the transformative power of compassion and respect, as they gradually shed their preconceived notions and embraced a more inclusive worldview. It served as a powerful medium to sensitize all and foster the virtues of compassion and respect towards every occupation. It taught that the dignity of labor lies not in its external perception, but in the dedication and commitment of those who perform it. Then, with our heads held high in pride of JKPS, as always, the principal felicitated Ruhaan Nagpal of X-A for clearing the third round of Abdul Kalam’s Mighty Minds Scholarship Programme and Samreen Kaur for securing the first position in the prestigious Mobile Photography Competition organised by the National Institute of Technology, Delhi. Furthermore, our school was awarded the trophy of appreciation by SIP Abacus for the excellent performance of Jaspalians in the All-India Inter-School Arithmetic Genius competition. The assembly then moved towards its final conclusion with the principal’s enriching words of appreciation and motivation. The assembly culminated with the rendition of the National Anthem.
