

JASPAL KAUR PUBLIC SCHOOL
PARTICIPATION IN POSHAN ABHIYAAN REPORT

Date : 7 September 2021

“When we do plant medicine, and we see love, we realize right then and there that it was never apart from us.”

Gerard Armond Powell

Trees provide us with many benefits necessary for survival, including clean air, access to clean water, shade, and food. They also give us hope, insight, and the courage to persevere – even in the harshest conditions. Trees teach us to stay rooted while soaring to great heights. Keeping all this in mind,herbal plants were plantedat JKPSon the school premises. It is a step to promote the establishment of a herbal/nutri garden for supporting **Poshan Abhiyan implemented by the Ministry of Women and Child Development**. Suitable and empty places were selected on the school premises. The school staff members, Eco club prefects along with Principal Ma'am planted medicinal plants (aloe vera, tulsi and ajwain)under the guidance of the school gardener. Students were made aware of the significance of these medicinal plants in our lives and were encouraged to plant saplings at home and in their surroundings.
