

## Orientation Session

*“Inclusion is a belief system. It begins with the belief that every child has the strength to build upon, interest to share, and experiences to honour.”*

Keeping these thoughts in our minds and spirits, an orientation session on using the PRASHAST Application was organized for all the staff members on 24 May 2023, Wednesday in the school auditorium. The school’s Special Educator Ms. Shruti Sethi, along with the resource person Ms. Subha Chandrashekhar (Founder and director, Anugraham) took the orientation on the app.

The teachers were guided step by step on how to register themselves on the app followed by the process of logging in and the subsequent steps to fill the data using the application. The facilitators were also guided about how to use part 1 of the PRASHAST checklist and the checkpoints they have to keep in mind while doing the screening.

At JKPS, we believe that early intervention is the key. Keeping this in mind, the teachers were guided about how to conduct universal screening, and by using the Prashast application, we will be able to do the identification of children and subsequently support them as per their needs.

The session ended with a Q&A session where the queries were taken up and solved via fruitful discussion.
