

WORKSHOP

PROFILE AND PORTFOLIO BUILDING

On Thursday, 5 October 2023, JKPS hosted an insightful workshop for the students in Classes IX, X, and XI. This workshop centred around the significance of Profile and Portfolio Building. The workshop was led by Mr. Lucky Puchhrat whose engaging session transcended the boundaries of conventional learning, leaving a lasting impact on the young minds.

During the workshop, Mr. Puchhrat delved into the concept of "Learn-Unlearn-Relearn," highlighting the importance of continuous adaptability in today's evolving world. He guided the students to see education as a means of gaining knowledge, taking action, and creating meaningful change. This perspective resonated deeply with our students, igniting their passion for the practical application of their learning.

A significant portion of the session was dedicated to Portfolio Building, where Mr. Puchhrat provided invaluable insights into crafting effective portfolios. He encouraged students to showcase their unique talents, academic achievements, extracurricular pursuits, and personal projects. Furthermore, Mr. Puchhrat patiently resolved questions, doubts, and apprehensions, fostering an environment of active learning and empowerment. This workshop has undoubtedly equipped our students with the tools and motivation to shape their futures and embrace lifelong learning. We extend our sincere gratitude to Mr. Lucky Puchhrat for his inspiring and informative session, and we look forward to future collaborations that empower our students to excel further in their academic and professional journeys.
