

Report on Psychometric Analysis of Students for Career Counselling

A career counselling session was conducted on 22 May 2023 for the students of class X. The discussion was based on psychometric assessment (interest and aptitude) in order to guide students to opt for suitable streams and career choices. The analysis was conducted freely to assist students to discover true potential, interest, and skills to excel in life. The analysis was conducted by a team from Savvyent Edutech Pvt. Ltd.
