

## A Visit to Pearl Academy

Venue: Pearl Academy, Rajouri Garden, Campus

Date: Friday, April 28, 2023

Classes: XI and XII

JKPS organized an orientation tour to Pearl Academy, which drew an enthusiastic group of 127 students eager to explore the various courses and career opportunities available. The goal was to provide students with exposure to diverse options, resulting in a highly enriching experience.

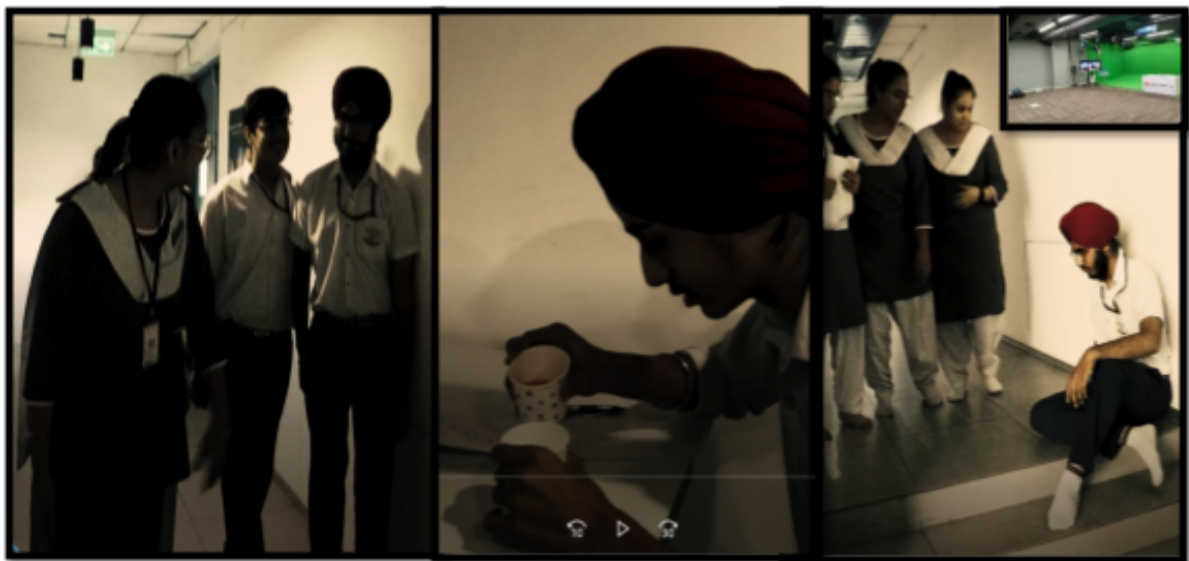

Upon arrival at the academy, students were given a concise briefing on the college and available courses. Following this, the students were divided into four groups based on their interests. Each group attended one of the following workshops in sync with their interests:

1. Textile for Fashion- Magic with Shibori technique
2. Media - Fashion and Films (Light Camera Action)
3. Media - Fashion and Social Media
4. Styling for Fashion

The students had an immersive experience and gained practical experience by participating in these workshops. They created tie-and-dye articles, scripted, directed, and produced short films, and took and presented self-portraits. The experiences were diverse and proved to be a novel experience for many students.

The boot camp sparked the imagination of many students, as they are now keen to pursue summer training and internships at Pearl. At JKPS, we eagerly anticipate organizing and facilitating many more self-indulging, self-exploratory visits for our students.

## Visit to Pearl Academy

Pearl Academy is known for its creative courses, and the filmmaking course is one of its most popular programs. I opted for filmmaking course, had the opportunity to learn about various aspects of filmmaking, such as scriptwriting, cinematography, editing, sound design, and direction.

I was particularly interested in directing, and I shot, a short movie on the zombie apocalypse. This idea excited the fans of zombie movies and TV shows, and I wanted to explore the genre through my own lens.

As I began working on the project, I realized that directing a movie was not an easy task. It required careful planning, attention to detail, and excellent communication skills to bring your vision to life. I had to work with a team of actors, crew members, and editors to ensure that every aspect of the movie was perfect.

One of the most challenging aspects of directing the zombie apocalypse movie was creating the right atmosphere and tone.

## A Day at Pearl Academy

It was pretty interesting and informative. It was our very first visit to a fashion designing and styling Institute which was no doubt so fun.

There were 3 workshops that were introduced to us, first being fashion and film making, second was for social media influencers and last being fashion style and imagery.

We went to fashion style and imagery in which we were first introduced to the topic and then we were asked to introduce ourselves using 3 adjectives in respect to that we were asked to click a self-portrait that in a way describes our personality. We were allowed to explore the campus and use different spots to create our self-portrait.
