

CANSUPPORT: RATION SUPPORT FOR CANCER PATIENTS

"What you do makes a difference, and you have to decide what kind of difference you want to make."

-Jane Goodall

The staff and students of JKPS have a long-standing tradition of contributing to social causes and supporting those in need. This year, the JKPS family has once again demonstrated its commitment to community service by extending **ration support to cancer patients**. Recognizing their needs, the JKPS community decided to take proactive steps to contribute to their health and nutrition by giving **20 ration kits** for the cancer patients on **23 August, 2024**.

The primary objective of this initiative was to provide essential ration kits to cancer patients, **ensuring they have access to the necessary nutritional support for a month. Each kit was carefully assembled to meet the dietary needs of patients undergoing treatment.**

Our staff members responded with remarkable generosity and enthusiasm. All 20 kits were funded entirely by the contributions of our staff, highlighting the deep sense of community and compassion within our institution.

Once the kits were assembled, they were promptly **delivered to the CanSupport** organisation, which is renowned for its commitment to improving the quality of life for cancer patients. The delivery was carried out seamlessly, ensuring that the kits reached the intended recipients without delay.

By engaging in this act of kindness, the staff and students of JKPS are not only supporting those in need but also **setting an example** of what it means to be an active and caring member of society.

This initiative aligns with several of the United Nations Sustainable Development Goals (SDGs), particularly: **SDG 3: Good Health and Well-Being**, **SDG 2: Zero Hunger** and **SDG 17: Partnerships for the Goals**.

It is a testament to the school's unwavering commitment to community service. Through these contributions, JKPS has once again shown that humanity and compassion are at the heart of its mission. This initiative not only provided much-needed support to cancer patients but also reinforced the culture of sharing our blessings within our organisation. The staff's willingness to contribute highlights the strong **sense of solidarity and empathy that defines our community**.
