Report on MUN Participation by JKPS

The students of Jaspal Kaur Public School enthusiastically participated in the Model United Nations (MUN) event held at Maharaja Agrasen School, Ashok Vihar, on October 16 and 17, 2024. The MUN is a simulation where students act as representatives of countries, organizations, or individuals, engaging in negotiation, debate, and discussion to solve real-world problems, much like the core functions of the United Nations.

Participants ranged from primary school students to university-level delegates, making it a diverse and enriching experience. Through MUN, students gained valuable insight into the principles of the United Nations, its functioning, as well as current global issues, international relations, and diplomacy. It also served as a platform for developing essential skills such as public speaking, persuasion, research, critical thinking, and situation analysis.

A highlight of the event was one of our students' impressive performances, which earned him the ‘Special Recognition Award.’ The simulation provided an ideal environment to enhance students' analytical and problem-solving abilities, as they navigated complex international scenarios, examined different viewpoints, and proposed potential solutions in the pursuit of consensus.

The MUN experience has proven to be an invaluable learning opportunity for Jaspal Kaur Public School students, fostering a deeper understanding of global affairs and leadership skills essential for future success.
