Celebration of World Environment Day –by TERI EIACP

To promote environmental awareness among students, TERI organized a poster-making and rangoli-making competition on **20 May 2024** for the students of classes V to X on the school premises.

Before the onset of the competition, the Information Officer of TERI, Ms. Pratiksha, had an interactive session with the participants to sensitize them about the growing environmental problems and how they can contribute to saving Mother Earth. Students were given 1 hour and 10 minutes to make the rangolis or posters.

Students participated enthusiastically and displayed their artistic skills through an array of beautiful posters on land restoration, desertification, and drought resilience. Some students also participated in a rangoli-making competition where they made creative and colourful rangoli depicting climate change and pollution.

At JKPS, we believe that empowering young minds with knowledge about environmental stewardship is essential in fostering a sustainable future. We delivered a meaningful educational experience through this initiative.

We are thrilled to announce that three of our students earned top positions in the inter-school event and will be honored on June 5, 2024, at India Habitat Centre, New Delhi.

1. Niharika Bandhu of Class VII B secured third place in the poster-making competition.
2. Rehat Kaur of Class VII B won first place in the rangoli-making competition.
3. Prisha Khurana of Class VII C achieved second place in the rangoli-making competition.
