Report on IT Week

Jaspal Kaur Public School celebrated IT Week from July 28 to August 1, 2025, with the aim of strengthening digital literacy, creativity, and innovation among learners. The event was inaugurated by the Principal, Mrs Asha Saran Srivastava, who encouraged students to use technology responsibly and productively.

During the week, each class participated in engaging, skill-based activities.

- Class III designed creative logos in *MS Paint*.
- Class IV created posters in *MS Word* highlighting the uses of computers.
- Class V prepared internet safety awareness posters in the same application.
- Class VI worked on spreadsheet tasks in *MS Excel*, learning data entry and basic formatting.
- Class VII explored digital image editing in *GIMP*.
- Class VIII designed brochures on cybersecurity and ways to stay safe online.
- Class IX produced informative posters and brochures on communication skills using *LibreOffice Writer*.
- Class X created professional CVs using the same tool.

A key highlight of the celebration was the spotlight on Artificial Intelligence, where students experienced interactive demonstrations on machine learning, robotics, chatbots, and image recognition. These sessions broadened their understanding of how emerging technologies are shaping the future.

With enthusiastic participation guided by the IT team and teachers, IT Week 2025 proved to be a dynamic and meaningful learning experience, equipping students with skills and confidence to navigate an increasingly digital world.
