

Educational Excursion to KidZania

Date: Friday, September 12, 2025

Classes: I & II

On 12th September 2025, the students of Classes I and II visited KidZania, a unique indoor theme park that provides children with an opportunity to experience real-life professions through role-play activities. The trip was both fun-filled and educational, giving children a taste of the adult world in a safe and engaging environment.

The students enthusiastically participated in a variety of activities such as Parle Candy Factory, Biscuit Factory, Juice Factory, DHL Express Service, KidZania Fire Department, Emergency Services, Aviation Academy, Dance Academy, Radio Station, Department Store, Painting Studio, and more. Each activity was supervised by trained attendants provided by KidZania, ensuring smooth participation and hands-on learning.

Children enjoyed taking on roles like pilots, doctors, chefs, firefighters, and shopkeepers, which not only made the experience exciting but also helped them learn important life skills. They earned and spent “KidZos,” the currency of KidZania, which gave them a practical understanding of money management.

The trip also promoted values of teamwork, problem-solving, communication, and responsibility. It was heartwarming to see the young learners so engaged and confident while exploring different professions.

The outing proved to be a perfect blend of fun and learning, leaving the children with lasting memories and meaningful experiences.

Students of Classes I and II enjoying their day at KidZania.
