Class Assembly on The Power of Words

Date: 16 May 25

Class VII A conducted a morning assembly on the theme “**The Power of Words,**” emphasizing the profound impact that language has on our thoughts, actions, and relationships. The assembly began with a heartfelt prayer, setting a reflective tone for the day. This was followed by an inspiring *Thought of the Day*, which highlighted the importance of choosing words wisely.

To enrich vocabulary and encourage linguistic exploration, two new words were introduced, motivating students to expand their verbal expression. A poignant poem was then recited, beautifully illustrating how words can heal, inspire, and bring about positive change. The assembly concluded with the rendition of the national anthem, instilling a deep sense of unity and patriotism among the students.

The assembly served as a powerful reminder of the responsibility that comes with the words we choose to speak. Through its various segments, students learned that words have the power to build bridges or create divides—and that it is essential to use them with thoughtfulness and care. Beyond enhancing language skills, the activities fostered empathy, respect, and mutual understanding among peers. The collective enthusiasm and wholehearted participation of the students underscored the success of the assembly, leaving a lasting impression on the importance of mindful communication.
