Visit to Vadde Vadere- An Old Age Home

“To care for those who once cared for us is one of the highest honours.”

On May 16, 2025, as part of a community outreach program, the eighth-grade students from Jaspal Kaur Public School went to a nearby senior living home with their teacher, Ms. Diljit Kaur. The purpose of the visit was to make the senior people happy while educating the children on the importance of compassion, empathy, and respect for the elderly.

It turned out to be a touching and enlightening visit. With smiles and open hearts, the senior citizens welcomed the students. Through interaction, listening to their life stories, and sharing emotions and laughter, the kids overcame the generational gap. The opportunity to observe the world through the eyes of people who have lived long and complete lives was a meaningful experience for the children.

As an expression of concern, the students brought food items to share with the seniors, including fruits, biscuits, dry snacks, and juices. The joy on the faces of the elderly after they received these kind gifts was absolutely invaluable.

One of the most memorable parts of the visit was when the students and the elderly residents came together to sing a Shabad. The collective singing created a serene and spiritual environment, and the harmony of voices from two different generations made the moment deeply emotional and uplifting for everyone present.

The visit had a long-lasting effect on the students. They learnt that even small acts of affection and kindness may make someone very happy. More significantly, it served as a reminder to them of the value of providing care for the elderly, who usually only want love and attention. The moments spent together, the blessings, and the smiles will always be treasured memories and an invaluable human lesson.
