

### Activity 3

Rediscovering Egyptian and Indian Dynasties: - A Journey beyond books.

Hope sees the invisible, Feels the intangible, Achieves the impossible.

The greatest characters of life not those who achieve opulence, success and supremacy in their life, but those who serve faithfully providing promises, hopes and cheers in others' life. JKPS has been described as an epitome for the same for long in an era where everyone needs to be multitasking and dynamic especially in student life. So the motto to 'Explore, Educate, Enlighten and Empower' remains a priority for the jaspalians.

Through this INTERDISCIPLINARY AND MULTIDIMENSIONAL ISA activity the participating learners were exposed to rich source of worldwide views and knowledge beyond text books to appreciate what they read, to enjoy the content and text language. The briefing sessions, rigorous practices helped them honing their theatrical skills. Comprehension skills of them was addressed and attended at two levels, one the text itself and the other of how the learner relates his/her text knowledge and experiences on the stage. Hence they could correlate Indian and Egyptian history culture governing policies of both the eras of that time .

It was a phenomenal experience for both i.e. for the students as well as the concerned activity incharge.
