

VISIT TO ABHYAS SPECIAL SCHOOL AND LEARNING CENTRE

“Every child is a different kind of flower that all together make this world a beautiful garden.”

Most of our school students are the privileged ones, having access to get their needs and wants fulfilled without even anticipating it. On the contrast, there exists another community where even basic needs of the people including children are seldom met on daily basis. Community services provides an opportunity for the privileged ones to empathise with these children, understand the harsh realities of life and hereby, intermingle with them, help them and most importantly, treat them with respect and dignity. The JKPS fraternity has always tried its best in sharing our blessings with the underprivileged members of the society. On 15 December 2022, our young Jaspalians along with their teachers, as part of our Community Outreach Programme, paid a visit to Abhyas Special School and Learning Centre in Derawal Nagar.

It was a day filled with learning and making memories as students got a chance to meet children with special needs and interact with the people there. Abhyas Special School works with specially abled children and adults while aiding in their learning journey. These members belong to age groups ranging from 5 years to 47 years. Everyone at Abhyas school was quite friendly and interactive.

Our students distributed chairs to the school. The place was filled with laughter, cheer and sheer joy. Every child, including Jaspalians, tapped their feet to the music and danced their hearts out. For the Jaspalians too, it was an educative experience. Through community service they learnt to become more sensitive towards children with special needs and came back feeling satisfied and content by bringing smiles and happiness to the children there!
