

CanSupport Walk-a-thon
'Walk for Life'
Kartavya Path- 19.02.2023

"Do what you can to show you care about other people, and you will make this world a better place."

Each year **4th February** marks **'World Cancer Day.'**

CanSupport Walk for Life – Stride against Cancer is an annual walkathon that is held every year in the month of February to celebrate World Cancer Day. Since 2008, CanSupport has been holding this event to create awareness about the rising incidence of cancer, show solidarity with cancer patients and their all-important support system – the dedicated caregivers.

As a part of our Community Outreach Program, we are associated with 'CanSupport' – An NGO honoured by the WHO (World Health Organization) with their Public Health Champion award for sustainable contribution to public health. CanSupport also leads the way in providing support to the people with cancer and their families while helping them live with dignity.

For many years our students and teachers have been going for their annual walk-a-thon – “Walk for Life.” This year too, JKPS along with its students and faculty members proudly volunteered to be a part of this noble cause which was held on February 19, 2023 at Kartavya Path.

We, at JKPS, recognise the power of team work and strongly encourage the propagation of awareness regarding Cancer.

Let's come together and reduce fear, increase understanding and change how we view cancer!
