## ACTIVITY

### Animal Mask

Animals are an integral part of our eco-system. In order to help our kindergarten students understand the significance of animals and enhance their knowledge about different types of animals, we conducted Animals Mask activity on Friday, 16/12/22. Students wore masks depicting their favourite animals and spoke about them. It was not only a great learning experience but also very enjoyable activity for our students.

## New Year's Card Making

New year is a time of new beginnings. In order to welcome the new year with lots of excitement, optimism and new promises, we conducted an interesting hands-on activity for our kindergarten students. They made beautiful cards through hand printing. Students and teachers both really enjoyed doing this activity and making something creative for their parents all by themselves.
