

VISIT TO VRIDHASHRAM

“To make an elderly person happy is the noblest act a young person can ever do!”

Continuing the legacy of our school, to always have compassion and respect for our elderly, five students of JKPS along with Ms. Priyanka Bhatia visited the old age home- Vriddha Ashram on 8 October 2022, Saturday as a part of our community outreach programme that aims to preserve the cultures, traditions and ethical values from one generation to another. Both the students as well as the residents of the organization were overwhelmed as they shared stories and experiences of their lives.

The students of JKPS contributed various food items like refined oil, tea leaves, sugar and spices to the old age home. They also entertained the inmates by singing songs, dancing, playing games and cracking jokes thereby spending some quality time with the elderly and breaking the monotony of their routine.

Though the students spent only a few hours with them, it made them realize the value of elders and the right way to treat and care for them.

The children also realized that their love for their family has now increased and grown stronger. The Jaspalians also took a pledge that they will spend quality time with their family, especially their grandparents and cherish all the moments together.
