Report on Visit to Abhyaas Learning Center

In the words of Martin Luther King Jr., "Life's most persistent and urgent question is: What are you doing for others?"

It is indeed quite satisfying to be of service to others. A country grows not by the growth of an individual but by the growth of every citizen as a whole- that's when real progress happens. The past two years have made us realize what holds primary importance in our lives as human beings- the health and well-being of ourselves and our countrymen.

JKPS has always believed in the power of community and in the strength of shared responsibility to help those in need. Following the philosophy of our founders, the teachers of JKPS visited the Abhyaas Learning Centre on 14 December 2021. Stationery essentials like pencils, erasers, sharpeners, art books and other supplies were gifted to the children as a token of love.

It is rightly said that small acts of kindness, when multiplied by millions of people can transform the world. It is this philosophy that the students and teachers of JKPS live by. After all, life is about walking together, facing challenges together, uplifting others and emerging as one great nation- together.
