

SUMMER SOJOURN REPORT

“Camp is where I learned about myself; facing fears, trying new things, pushing my boundaries, and accepting myself.”

Believing in the above ethos, we, at JKPS have been conducting summer camps regularly during every summer vacation. We strongly believe that every adversity brings an opportunity to bring out the best. To promote emotional wellbeing and to enrich our students, JKPS organized the virtual **SUMMER SOJOURN** for all classes from April 26 to May 7, 2021. The scheduling of events was such that every day the students had a new topic with different, fun-filled, and educative activities.

The event was planned with an objective to keep the students constructively engaged and to promote learning with fun. The students were engaged in activities that were enjoyable and meaningful. This summer camp gave them an opportunity to learn and develop diverse skills in painting, craftwork, dance, etc. Additionally, it provided an even platform for all kids to explore and express their creativity in any form. This virtual summer camp aimed to educate and create awareness among the students about various issues like the environment, nutrition, etc.

The best part of the camp was that the teachers ensured that the materials required for the activities were easily available at home. It was heartening to see the students participating enthusiastically in large numbers thereby making the event a grand success.

The **SUMMER SOJOURN** culminated with a grand *Talent Hunt Show* where the students showcased their talents through singing, dancing, instrumental music, comedy, storytelling, poetry reading, and many more activities. The smiles and thumbs up from the kids spoke volumes about the success of the virtual summer camp that enriched and groomed students, parents, and teachers as JKPS family.
