

TURKEY-SYRIA EARTHQUAKE CONTRIBUTION DRIVE REPORT

"The purpose of human life is to serve, and to show compassion and the will to help others."
– Albert Schweitzer.

Turkey & Syria are facing major challenges due to massive and devastating earthquakes, making it the deadliest disaster since the country's founding 100 years ago. The impact has been widespread and many communities have been severely affected. In this difficult time, Jaspalians along with the Community Outreach Programme have come together to extend their support to the people in need.

JKPS along with the support of the parents, students and the faculty members have taken a golden initiative to contribute to the best of their capabilities to the people who are in dire need of support in these trying times.

There's no such thing as a small act of kindness. Every act creates a ripple with no logical end, and that is why our young philanthropists opened up their heart and soul to this meaningful cause and contributed various hygiene products and things of daily use like sleeping bags, hand wash, sanitizers, toothbrushes, tissues, soap bars, room heaters, blankets and so on. This was all deposited to the Embassy of Turkey in New Delhi which was visited by our Faculty members Ms. Priyanka Bhatia and Ms. Diksha Malhotra.

The Team Community Outreach knows and deeply believes in the virtue of love and kindness as these qualities always make a difference. They bless the one who receives them, and they bless the giver even more.
