

Report on World Environment Day celebration

The pandemic that the world has been facing for over a year now, has taught us an important lesson - We should respect and value the gifts we have got from Mother Nature.

For too long now, humans have been exploiting earth's natural ecosystems for their benefit and in the process destroying them forever. It is high time now that we all come together and become more aware and conscious of the way we are utilizing our natural resources. In line with this year's theme - **Ecosystem Restoration**, we at JKPS aimed to teach our students the same through the various activities organized to celebrate World Environment Day on 5 June 2021.

The day began with a beautiful message shared by our Principal Mrs. Asha Saran Srivastava which motivated everyone to celebrate this special day with great zeal and enthusiasm. Various online activities were designed for students to keep them aware of environmental issues and the ways to deal with them. They made green crowns, organic bird feeders, eco-friendly bags, and posters with slogans on the theme 'Ecosystem Restoration' and planted saplings at their homes.

The main objective of observing this day was to bring about a change in their attitude towards the environment and advocate partnership between each human being and society to ensure a safe future for all.
