

***“Happiness is a state of activity.”***

Children are a beacon of happiness, enthusiasm, and positivity. This positivity when harnessed appropriately can widen the horizons even in these unusual times. In an endeavour to keep our children engaged constructively, we at JKPS have continued with our enriching **evening club** activities to ensure that our students do not miss out on a wholesome learning experience and also use their time constructively. Evening hobby clubs offer the students a platform to showcase their creativity and talent. The key is to stay positive and meaningfully occupied. **Evening clubs like Vocal Music, Art and Craft, Best out of Waste, Yoga and Fitness Club, and Dance** have contributed towards the holistic development of our students.

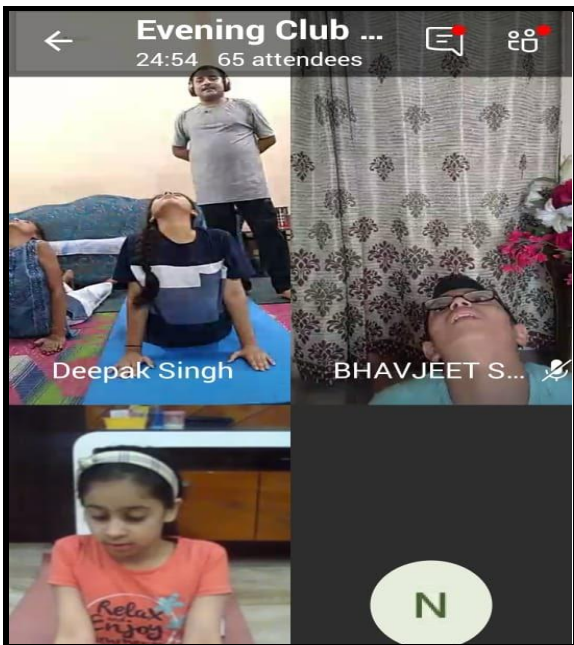

**It's time to fly with wings of imagination!**

## Art is the best form of expression

## Where the mind is without fear...

Fitness club

## Let's unravel the hidden language of our soul... let's dance

## Tune yourself to some melodious music
