### My Family

Family not only provides security and support but also provides unconditional love and emotional support. It's very well proved as even a kindergarten child cries for his parents during the initial days of schooling. So, to make children realize the importance of a family, the school conducted an assembly where the small munchkins did the role-play of grandmother, grandfather, mother, father, sister, and brother. Our children understood that family teaches moral values, and support in bad times and is a big blessing.

### Show 'N' Tell

Show n Tell activity provides a wonderful platform for developing language skills. The children were given an opportunity to speak on a topic of their interest so that they make a genuine effort to speak and develop their vocabulary. It encourages them to stand up in front of their friends and speak. This activity built up confidence and helped children develop effective communication skills.

### Janmashtami

Matki making and decorating activity was done by the kindergarten students on Thursday, August 11, 2022, in the scrap file. Making use of cotton balls, sparkles, mirrors, and decorative items, each child showed his/her creativity and enjoyed the activity to the fullest.
