

STUDENTS EMPOWERMENT SESSION 2021-2022

Topic : Extramarks Weekender

Date: 15 and 16 January 2022

Classes: V-VIII

Organiser & Presenter- Extramarks

Learning Outcomes :

It was an interactive virtual experience for students to develop the joy of learning in various dimensions of their daily life. Expert talks on the power of choice, effective decision making, mental health awareness were conducted. Various relevant workshops on the impact of social media on our holistic health, happiness, public speaking etc. were also taken effectively.

Various renowned and inspirational personalities like Mithali Raj, Neha Dhupia, Anurag Dixit provided specific expert talks on interesting topics like Fitness formula, Passion to Purpose, Balancing work and daily life. It was an enriching, enlightening and very motivational session for students.

STUDENTS EMPOWERMENT SESSION 2021-2022

Topic : Android App Development Workshop

Date: 17 January 2022

Classes: V-VIII

Organiser & Presenter- Avishkaar

Learning Outcomes :

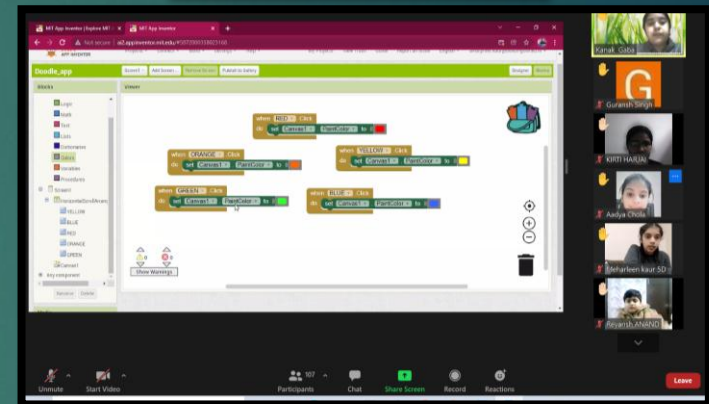

Students were explained about coding, through a graphical interface. The expert provided them with an introduction of MIT APP INVENTOR and a small demonstration of creating a project.

The workshop helped the students to enhance their interest in this newly emerging field.

The resource person was very interactive and helpful.

There was mass participation by our students.

They joined and carried out the instructions judiciously and thoroughly enjoyed the sessions.

Computer programming is important today because so much of our world is automated. So I like the way mam had explained. And I like to do coding now

Anshpreet Singh 7B , Mam the session was interesting and knowledgeable. we learned many thing about coding

5:06 PM

It was an excellent workshop. It explained us about doodling and how to create a paint app. We learnt something new. After trying this I made app and felt very nice about it. Thanks to teachers and staff for holding such workshops.
